Word Search

Find every word from the list hidden in the grid. Words run forwards, backwards, up, down and diagonally, always in a straight line.

Where an entry in the list is two or more words, it is hidden in the grid without the spaces.

Sudoku

Fill every empty square so that each row, each column and each of the nine 3x3 boxes contains the digits 1 to 9 exactly once.

Every sudoku in this book has exactly one solution, and each can be solved by logic alone. No guessing is needed.
